

Alex Teplyakov Democratic State Committee

Dear Fellow Democrats,

It has been my honor to serve you and our party as your CCDC Secretary. Since before I could even vote, I've made it a priority to do all I can to elect Democrats and build our party. From being a poll watcher and OFA volunteer team leader while I was still in high school to managing campaigns at various levels of government, I believe in our Democratic values and the importance of the work that we do. I am running for Democratic State Committee so I can stand up for these values and push our State Party to be an active advocate and defender of what we believe in.

As a member of your CCDC Executive Board, I've brought my background in policy and campaign work to support our party's efforts to elect our down-ballot candidates, promote the unprecedented accomplishments of our Democratic incumbents, and improve our messaging through my committee involvement. I've worked to be visible throughout the county and attend Zone meetings and events to understand your needs. And when we didn't get the messaging from the State Party on destructive Republican-backed ballot questions that we needed last year, I joined county party officials across the state and we crafted our own messaging and ran our own advertising.

On State Committee, my priorities would be similar: advocate for stronger down-ballot support, ensure clear messaging and resources to fight against increasingly-frequent Republican ballot questions, and be accessible as ***your*** elected party representative. I would be honored to have your support, and in the meantime I am grateful for the opportunity to serve our party on the local and county Democratic committees.

Thank you,

Alex Teplyakov
