

CHRISTOPHER KOWERDOVICH

POLITICAL ORGANIZER

kovie85@yahoo.com
484-206-5600

Profile

I'm excited to be running to stay on State Committee. My objective is to move forward with the organizing I'm doing with the Pennsylvania Democratic Party, keep providing representation for all of Chester County, and the well being of the Commonwealth. I'm the only Veteran and LGBT member currently serving on State Committee for Chester Co. With 10 seats open and a list voting system, it's nice to be able to have the chairs at the table for different people. It would be a great honor to win your support.

Background

I was a medic in the Pennsylvania Army National Guard and served in Iraq. I have attended Penn State gaining a B.S. in Organizational Leadership & Labor. I got into political organizing in 2012 with the re-election of Obama. I have stayed with the party and have worked on over 30 races, most of which are in Chester County.

Currently, I am a member of State Committee. In this role, I have been active in both caucuses and grassroots support for statewide candidates. I am a lively member of the veterans' caucus serving as treasurer. I attend the rural, labor, progressive, disability, and LGBT caucuses. If the good folks of Chester Co give me the honor to stay on state committee, I will run for chair of the Veterans' Caucus.

Values

Some things that come to mind: Living wages, Universal Healthcare, Paid Sick and Family Leave, Women Healthcare Rights, Unions for All, Black Life's Matter and A Clean Environment for Generations to come. Voting is the fundamental right that sustains these values and I have supported all the efforts the state party has taken in pushing back on the GOP in the courts.

Building on what I have laid out so far, I will keep pushing for our values here in the Chester County Democratic Party of:

- **Freedom** as laid out in the Four Freedoms President Roosevelt described.
- **Fairness** in a society with equality and impartiality for all.
- **Opportunity** no matter what zip code you are from.

I hope that one day we can truly live up to liberty and justice for all. Well if you have gotten this far, let me just say thank you for reading about me. I am grateful there are informed voters like you and I hope I can count on your support and vote.
